MEMORANDUM FOR: Chairman, National Intelligence Council

FROM: Executive Assistant to the DDCI

The DDCI, who will be on leave on the date of the next NFIB, has the following suggestions on the draft publications he has reviewed so far:

-- Prospects for Iraq: He suggests including comments in the Key Judgments about the Soviets' recent tilt towards Iraq. Other than that, he found the paper quite good.

-- West Germany, Security Issues, and the Alliance: Again, the DDCI found this paper quite good and would only suggest updating it to include the results of Kohl's recent trip to Moscow.
